PERFIL PROFESIONAL

Full Stack Developer with over 3 years of experience specializing in building SaaS solutions, scalable architectures, and cloud deployments. Proficient in the JavaScript/TypeScript ecosystem, including React, Next.js, Angular, Nest.js, and AWS cloud infrastructure. Advanced English level (C1) with solid experience working in agile environments using SCRUM methodology.

EXPERIENCIA PROFESIONAL

FULL STACK DEVELOPER | Moventi (Santander / SURGIR) | Feb 2026 – Present

- Designed and developed modular interfaces and scalable components using Angular and React under a microfrontends approach and Clean Architecture.
- Integrated backend APIs within an agile banking environment (SCRUM), ensuring data security and high code quality.

Tech Stack: Angular, React, TypeScript, Microfrontends, Clean Architecture, Git, SCRUM, Azure

SEMI-SENIOR BACKEND DEVELOPER | Capital Cielo | Sep 2025 – Feb 2026

- Designed and implemented a microservices architecture using Hexagonal Architecture with NestJS, leading the successful user migration from a legacy platform to AWS.
- Configured advanced cloud services such as AWS Cognito for identity management, serverless Lambdas, and optimized storage with RDS, ElastiCache, and S3.

Stack: Node.js, NestJS, TypeScript, AWS (Cognito/Lambda/RDS/S3), Hexagonal Architecture, Microservices

FULL STACK DEVELOPER | HOMI.GG | Feb 2025 – Sep 2025

- Developed SaaS solutions, including core electronic invoicing modules integrated with SUNAT (invoices, receipts, and credit notes).
- Built a Discord bot in Node.js for SUNAT error reporting, automating workflows and reducing manual handling time by 50%.

Tech Stack: Next.js, React.js, Redux, Vercel, Node.js, Nest.js, JavaScript, Git, MongoDB

FULL STACK DEVELOPER | ID Business Intelligence | Feb 2024 – Ene 2025

- Designed RESTful endpoints with NestJS and implemented reusable, responsive UI components on the frontend using React, Zustand, and TypeScript.
- Configured CI/CD pipelines (Jenkins) and collaborated closely with design teams under agile methodologies.

Tech Stack: React, TypeScript, Zustand, Node.js, Nest.js, TypeORM, MySQL, AWS S3, Jenkins.

FULL STACK DEVELOPER | Andromeda Computer (Colombia) | Sept 2023 – Jan 2024

- Developed a secure tokenization system on the Algorand Blockchain.
- Built interfaces with React and TailwindCSS integrated with a Node.js and Docker backend.

Tech Stack: React, TailwindCSS, Node.js, Docker, Algorand Blockchain, Git.

EDUCACIÓN

- Systems Engineering | Universidad Peruana de Ciencias Aplicadas (UPC) | 2025 – Present
- Full Stack Developer | Soy Henry Bootcamp (Argentina) | 2023 | [\[View Certificate\]](#)

IDIOMAS

- English: Advanced (C1) | Spanish: Native
